

*TIME is the single most important factor when it comes to save your eye sight.
When an accident occurs quick and easy access to effective rinsing of your eyes is essential to minimize the damages.*

QUICK

EASY

EFFECTIVE

1: Remove can from station 2: Place eye opener at eye 3: Press the wings and rinse

FAST AND EFFECTIVE FIRST AID

EYEAID eye wash is single hand operated, and therefore both quick, easy and effective in use. It only takes one move to start rinsing your eye. The innovative and unique eye opener ensures a safe and precise rinsing of the eye. Each of the 250 ml. spray can contains more than 15 minutes of rinsing time.

By severe injuries the long and effective rinsing time ensures the injured person high mobility during transport to hospital.

The eye opener makes it possible to open the eye without any physical contact to the eye or its surroundings. This eliminates the risk of further contamination from dirty fingers.

The **EYEAID** wall station is highly visible due to its unique design and choice of colors. The station ensures quick access to the bottles and protects them from dirt and dust.

EYEAID gives you great value for money through an innovative solution and long rinsing time at lower cost.

BRINGING INNOVATION TO LIFE

eyeaid brings innovation to first aid.

- IT IS SINGLE HAND OPERATED
- IT ONLY TAKES ONE MOVEMENT TO START RINSING
- IT GIVES MORE THAN 15 MINUTES OF RINSING TIME PER SPRAY CAN
- 4-5 TIMES MORE RINSING TIME THAN TRADITIONAL SOLUTIONS
- RINSES THE EYE QUICK AND EFFECTIVELY
